OUR SERVICES

Rope Access Industrial Climbing

Rope access is an effective method for maintenance and installation services. It has been proven to be faster, more efficient, and safer than traditional techniques. Some of the maintenance and installation services provided by our expert rope access technician team include:

- ✓ Mechanical Maintenance & Steel Works
- ✓ Electrical & Lighting Works
- ✓ Facade Modification & Repairs
- ✓ Industrial Facility Cleaning Services
- ✓ Concrete & Stone Wall Repairs
- ✓ Confined Space Operations
- ✓ Electronic Equipment Installation

Lighting Systems Installation

At AKDEN Group, through our lighting systems service, we meet the lighting needs of your building or facility in the most suitable way, creating an environment that is both functional and aesthetic.

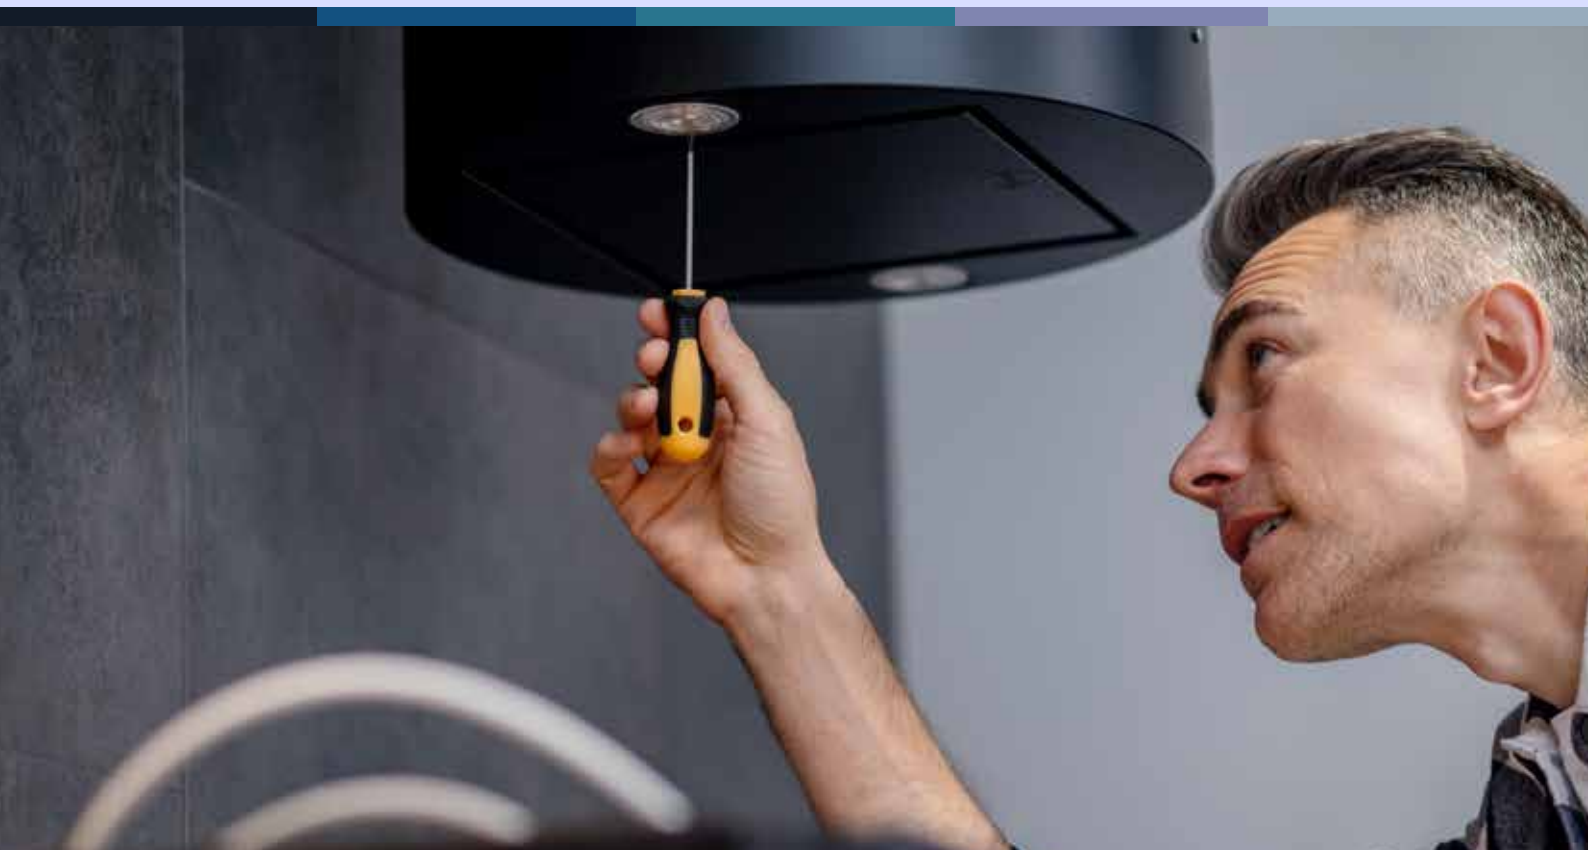

With our years of experience and expertise, we offer customized solutions by con-

Design and Planning: We perform a detailed analysis of your space to determine the required light levels, fixture types, and layouts.

Energy Efficiency: We help you reduce electricity costs with energy-saving LED lighting solutions.

Lighting Control Systems: We install automated lighting control systems to optimize energy savings and enhance comfort.

Implementation and Maintenance: We support you throughout all stages of the project and meticulously handle the installation and maintenance of your lighting system.

OUR SERVICES

Worksite Installation and Assembly

At AKDEN Group, we are with you at every stage of your construction projects — from start to finish. With our expertise in site management, installation, maintenance, and repair services, we ensure that your projects progress efficiently, safely, and seamlessly. Whether it's a shopping mall, factory, hotel, residential complex, or

Manufacturing and Installation Services

Our experienced technical teams carry out the on-site installation of custom-fabricated components for steel structures, industrial facilities, machinery systems, and power plants with high precision. These services are tailored to meet the specific needs of each client.

- ✓ Pipeline Installation
- ✓ Technical Support and Maintenance
- ✓ Industry Expertise Across a Wide Application Area
- ✓ Safety, Quality, and Efficiency

Occupational Safety

AKDEN Group Occupational Safety Services

At AKDEN Group, our occupational health and safety services are designed to help workplaces build a sustainable safety culture. Our experienced experts go beyond legal compliance to prioritize both employee safety and operational efficiency.

Risk Assessment and Hazard Analysis: We perform customized risk assessments to identify potential hazards and plan effective preventive measures.

Emergency Planning: We prepare emergency action plans for fire, earthquake, and other critical events, and assign roles accordingly.

Drills and Training: We organize emergency drills and provide hands-on training to ensure personnel readiness.

OHS Board Consultancy: We support the establishment of legal OHS committees, follow up meetings, and prepare necessary documentation.

Periodic Inspections and Reporting: We perform regular on-site safety checks and provide detailed reports to management to ensure continuous improvement.

OUR SERVICES

Architectural Project Consultancy

At AKDEN Group, we offer professional architectural consulting solutions from concept to execution. With our experienced architects and multidisciplinary experts, we unlock each project's full potential by balancing functionality with aesthetics.

Concept Development: We design creative and original concepts tailored to the project's purpose and environment.

Needs Program Analysis: We offer efficient design solutions with functional space analysis and user-oriented planning.

Construction Project Consultancy: We guide you through technical detailing and regulatory compliance in implementation projects.

Material and Detail Consultancy: We help you achieve sustainability and cost-efficiency through accurate material selection and technical advice.

**The foundation of architectural success is built on the right consultancy.
Elevate your projects with AKDEN Group.**

OUR SERVICES

After-Sales Support Services

At AKDEN Group, we believe service doesn't end with product delivery. We continue to support our clients after the sale with strong after-sales services. In technical product groups such as construction materials, energy systems, and aluminum joinery, long-term satisfaction is only possible through reliable support.

Why AKDEN Group?

- ✓ Expert technical service team
- ✓ Professional support staff with extensive product knowledge
- ✓ Rapid intervention and on-site solution capability
- ✓ Brand-independent solution strategies
- ✓ Long-term partnership approach

STRONG PARTNERSHIPS WITH LEADING BRANDS

At AKDEN Group, we proudly collaborate with the most reputable and trusted brands with industry leaders such as we provide offering the highest-quality products at the most competitive prices for your construction projects.

Exclusive pricing advantages

Fast and reliable supply chain

Tailor-made solutions for every project

Timely and complete logistics support

All our products are certified, durable, and meet international standards. With our extensive inventory and expert logistics team, we ensure that you receive exactly what you need—on time and with full reliability. Working with AKDEN Group means buying not just products, but complete solutions.
